

Sprint -1

Working with dataset (Loading The Dataset)

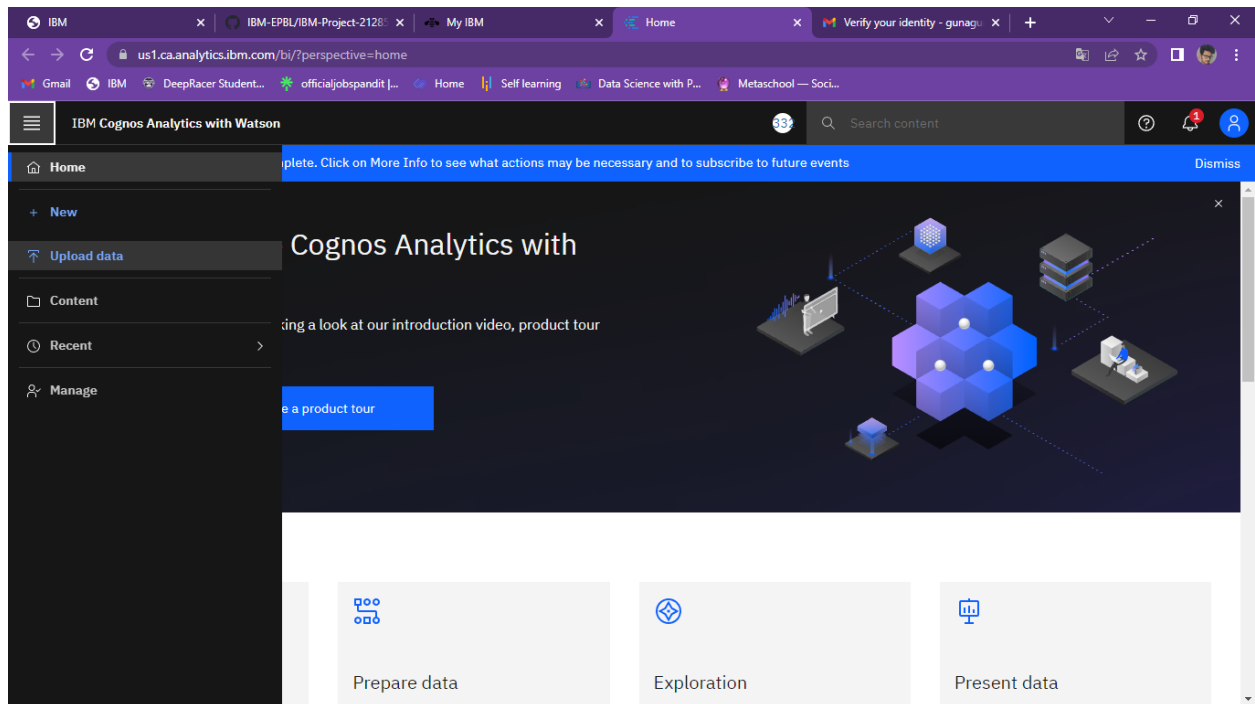

Date	24 October 2022
Team ID	PNT2022TMID43579
Project Name	Estimate The Crop Yield Using Data Analytics

- ✓ Before building the interactive visuals dashboard, we should view and analyze the data, you must first upload the data in IBM cognos after understanding Them. Cognos most supportive tool for this task, it can connect wide varitery of data, stored in variety of places .
- ✓ The might be stored in system storage , drive as txt file, csv file and other files , or in big data , relational or cube database on server in enterprise
- ✓ For better understanding we can go through the demo video given by IBM.

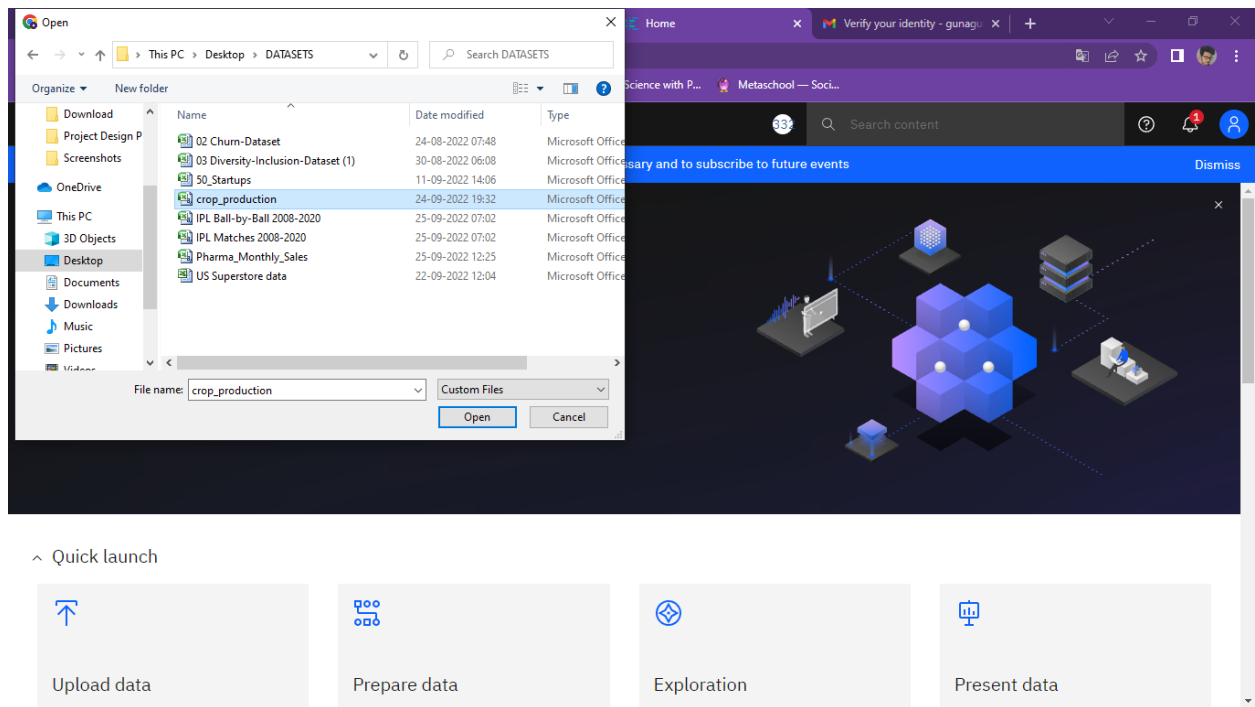

1.Login Into Ibm Cognos

The screenshot displays the IBM Cognos Analytics with Watson dashboard. At the top, there's a navigation bar with the IBM logo and a search bar. Below the navigation bar, a large banner area contains the text "Hello. Welcome to Cognos Analytics with Watson." and a sub-header "You can get started right away by taking a look at our introduction video, product tour and Getting Started tab." There are two buttons: "Watch video" and "Take a product tour". To the right of the text is a 3D isometric illustration of data cubes and charts. Below the banner, a "Quick launch" section is visible, featuring four cards: "Upload data" (with an upload icon), "Prepare data" (with a data module icon), "Exploration" (with a magnifying glass icon), and "Present data" (with a presentation icon). Each card has a brief description of the action.

2. Go To Menu Icon Left Click On Upload Data:

3. Select The Needed Dataset:

4.Click On Open And Wait To Upload The Data:
